Your own special week, 8/95:52

BENCHMARKING

ASHMM president's letter, 2/95:14; 4/95:14;
6/95:14
Bumpy junction between supplies and nursing
models, 6/95:34
Go ahead, it's OK to copy, 12/95:18
Hearts, knees or hips: where to focus OR savings
efforts, 6/95:70
News update, 3/95:10; 5/95:7; 6/95:7,10,12
Productivity and warehouse equipment, 6/95:120
What does the future hold for GPOs? 9/95:80

BUDGETING/FINANCE

ASHMM '95 notebook, 8/95:10
ASHMM president's letter, 4/95:14
Capital decisions: What is your boss thinking?
6/95:82
Capital equipment group brings materials man-
agement into the loop, 1/95:44
Check please! Materials managers pay the bills at
Middlesex, 1/95:42
Hearts, knees or hips: where to focus OR savings
efforts, 6/95:70
Inside outsourcing, 9/95:28
Know how to manage your service contracts,
9/95:36
Material contribution: The supply side of a Great
Comeback, 8/95:26
Monitor, 6/95:10; 9/95:12; 10/95:10; 11/95:9
News update, 3/95:9; 4/95:6,8; 6/95:10,12;
8/95:6; 10/95:9; 11/95:6,10
Teams fit \$7.5 million in requests into a \$3 mil-
lion budget, 3/95:50
The '25 percent challenge': Forging a new supply
chain, 7/95:48
The hidden cost calculator: A new way to look at
custom packs, 7/95:18

CAREERS/HUMAN RESOURCES

ASHCSP president's letter, 2/95:16; 4/95:16
ASHMM '95 notebook, 8/95:10
ASHMM president's letter, 7/95:12; 9/95:14
Chain dance: Supply-side partners anticipate next
move, 11/95:26
Coping with hard times: The hero inside, 7/95:56
Dirty dozen: common mistakes when managing
part-time workers, 9/95:56
Empowering employees: Here's how to do it
right, 11/95:52
Help injured workers get back on their feet, 8/95:56
Material contribution: The supply side of a Great
Comeback, 8/95:26
Monitor, 9/95:12
News update, 4/95:8; 9/95:10; 10/95:9; 11/95:6
Pay increases head slightly upward, 12/95:22

Questions & Answers, 8/95:66

Recruits from other industries: What can they
teach you? 4/95:22
Sexual harassment: health care's costly little
secret, 2/95:52
Taming the 7-headed beast: How to lead difficult
personals, 3/95:60
The changing face of materials management,
7/95:36
Tread carefully when dealing with personal prob-
lems of employees, 5/95:52
Unlock the door to the executive suite, 6/95:94
Will history repeat itself at Tampa General?

Bring frontline workers to the forefront of prod-
uct design, 8/95:38
Bumpy junction between supplies and nursing
models, 6/95:34
Ensuring a high-quality standardization process,
6/95:74
Five strategies for drafting doctors to your cost-
cutting team, 3/95:20
Let's take the 'oops' out of sterile processing,
5/95:20
Man meets machine: Buying right can reduce
human error, 11/95:20
Monitor, 10/95:10
News update, 1/95:7; 2/95:6; 2/95:9,10; 3/95:10,
11; 4/95:8; 5/95:7; 6/95:6,10,12; 7/95:10;
8/95:9; 9/95:10; 11/95:9
Nursing the product purchase process back to
health, 5/95:62
Purchasing trends erode clinician clout, 6/95:90
'Show & Tell' for the JCAHO features needle-free
success, 5/95:70
Streamlining preference lists, 5/95:26
Support surfaces can pamper skin—and your
budget, 4/95:30
The delicate balance: IV supplies and infection
control, 1/95:32
Tubing or not tubing? That's the question in pedi-
atric ICUs, 5/95:36
Uplifting news for patients, worker safety and
financial returns, 6/95:100
Well-centered: balancing materials and patient-
focused care, 10/95:42
What does the future hold for GPOs? 9/95:80

CODES, STANDARDS, REGULATIONS

10 challenges to event-related sterility, 9/95:60
Do your gloves really protect you from glu-
taraldehyde? 6/95:104
Future scope: What will it take to manage new
technology? 11/95:32
Hard facts about software, 7/95:20
Hospitals could be caught in the draft of new
GMPs, 12/95:14
Man meets machine: Buying right can reduce
human error, 11/95:20
Monitor, 2/95:9; 3/95:11; 4/95:11; 5/95:9; 6/95:10;
7/95:10; 8/95:9; 9/95:12; 10/95:10; 11/95:9
News update, 1/95:6,9; 2/95:10; 6/95:6,7; 8/95:6
New TB respirator standards mean more choices

at less cost, 11/95:14

Questions & Answers, 8/95:66; 10/95:58
Regs shed light on the need for a better way to
sterilize, 10/95:60
Respirator proposal loses breath when applied to
health care, 6/95:18
Smoke rings and war signals: EPA's recent action
on incineration, 3/95:18
To have (medical devices) or have not: What's
better for patients? 5/95:12
Watching the watchdog: Hospitals take on the
Joint Commission, 3/95:54
What a deal: gas for less, 10/95:48
Will new incineration rules burn up your waste
disposal budget? 2/95:48

CONTRACTS/CONTRACTING

A close-up on film vendors helps cut cost per
procedure, 11/95:54
Food for thought: Are prime vendors the answer
to dietary dilemmas? 8/95:42
ASHMM '95 notebook, 8/95:10
ASHMM president's letter, 8/95:12
Chain dance: Supply-side partners anticipate next
move, 11/95:26
Committed volume contracts: Their growth
could change your job, 1/95:14
Hard facts about software, 7/95:20
Inside outsourcing, 9/95:28
Know how to manage your service contracts,
9/95:36
Management by report card: Avoid suspension in
a few easy lessons, 10/95:16
Monitor, 7/95:10
News update, 2/95:6,9-10; 3/95:9,10,12;
4/95:6,8; 5/95:6,7; 6/95:6,7,12; 7/95:9,10;
9/95:9,10; 10/95:6,9; 11/95:6,9
Panel mulls new contract definitions, 6/95:28
Purchasing trends erode clinician clout, 6/95:90
Seven steps to a capitated contract for orthope-
dic implants, 12/95:38

DECONTAMINATION/DISINFECTION

Do your gloves really protect you from glu-
taraldehyde? 6/95:104
It takes many hands to solve glutaraldehyde safe-
ty problem, 12/95:32
Let's take the 'oops' out of sterile processing,
5/95:20
Monitor, 3/95:11; 5/95:9; 10/95:10
News update, 1/95:6; 5/95:6
Not all roads lead to CS consolidation, 10/95:20
Questions & Answers, 10/95:58

DISPOSABLES/REUSABLES

Minisurvey: surgical packs, 8/95:80
News update, 1/95:6; 2/95:10; 3/95:10 6/95:12;
9/95:9; 10/95:9; 11/95:6
Put pat answers: Solving your own protective
wear puzzle, 2/95:26
Put those nagging sterilization worries to rest,
once and for all, 9/95:50
Sharps container recycling: A radical approach
enhances safety, 10/95:66
The hidden cost calculator: A new way to look at
custom packs, 7/95:18

DISTRIBUTION/DISTRIBUTORS

MULTIPAK™ from Riley Medical, Inc., is the revolutionary new Standardized Instrument Organizing System that allows for processing, storage, and handling of surgical instruments more efficiently than ever before. User-defined custom configurations of trays, bars, holders, and other accessories can accommodate even the most specialized instrumentation needs - whether general surgery, ophthalmology, endoscopy, or orthopaedics.

MULTIPAK trays are engineered with R-Mer™, a polymer designed for long-term durability. Silicone accessories protect even the most delicate instruments. All components can withstand temperatures up to 380 F. steam, ethylene oxide and cold sterilizing solutions.

Best of all, MULTIPAK lets you order just what you need, when you need it. And Riley Medical is committed to supporting the MULTIPAK system to meet your expanding needs into the next century.

ELASTYREN® THE BEST SOLUTION TO THE LATEX PROBLEM.

Non-latex Elastyren gloves solve one of your biggest problems: finding the proper glove for your health care providers and patients who have allergic reactions to latex.

It's been suggested that Elastyren gloves may be the only glove that some exquisitely rubber-sensitive medical personnel can use.

Elastyren gloves meet established standards as effective barriers against the passage of bloodborne pathogens*, offer optimal dexterity and tactile sensitivity and have been used for 20 years in Europe.

Elastyren gloves are available in both sterile surgical gloves and procedure (hand specific, patient examination) gloves—25 pairs per dispenser box—in 7 specific sizes, from 6 to 9.

Make sure you're stocking the best solution to the latex problem. Call Toll-Free for technical information, pricing and free samples of Elastyren gloves.

Where can you find one source offering high quality, low cost, hospital and laboratory bags that exceed compliance standards, with delivery on time...every time?

We've made it easier for you to benefit from our experience.

We asked dozens of healthcare workers, like yourself, what you wanted most in the products you have to work with day after day. We also asked how you'd like them displayed for ordering.

You're looking at the results.

First we made the products...right here in the USA, so you can have immediate delivery of superior bags for personal belongings, emergency rooms, specimen handling and many other hospital procedures. And they exceed the new OSHA regulations with cost-effective compliance.

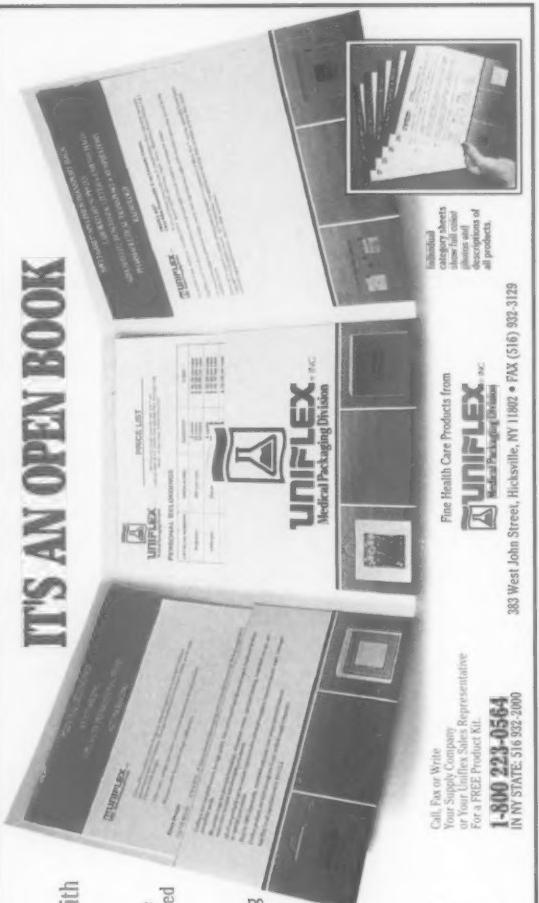

Then we designed our catalog to make it easier for you to order. All bags can be private label imprinted with your facility name. Many come in opaque or clear styles. They're 100% disposable, and recyclable, and have unique, patent features.

In addition to bags, you'll find a number of hospitality and morale-building items for staff and patients.

Join the thousands of hospitals and laboratories who've discovered the Uniflex prescription for outstanding value, by placing our high quality products in the important areas of your institution.

No wonder people feel a lot better when we're in the hospital. You will too, when you put us in yours.
